

## TALK TIME

When a reporter asked Thomas Edison, "How did it feel to fail 1,000 times" at improving the light bulb?" Edison replied, "I didn't fail 1,000 times. The light bulb was an invention with 1,000 steps."

**Research some famous people who have failed before achieving success. Discuss and record the growth mindset it takes to do what these people did.**

**Write down your discussions in a thoughtful reflection.**

## CREATIVE

Time to get creative! Create a mini-model of a Mayan, Incan, or Aztec temple; make a headdress; make an artefact... or use an idea of your own and build it/share it with the class.

We'd like to display these items above our topic board.

## PRACTICE MAKES PERFECT

Measure the perimeter and area of a section of your house (i.e. garden, kitchen, living room, etc)

Draw the shape and show your calculations in your home learning book. Use a ruler!

# Maple Class Term 4

## PRACTICE MAKES PERFECT

Please make a helpful learning tool illustrating different units of measure. You may want to focus on unit conversion (i.e. m.  $\longleftrightarrow$  cm, m  $\longleftrightarrow$  km, etc).

Use this tool to help you practice converting different units of measure.

## CREATIVE

Ask Mr. Culbreth for a science activity. Carry out this activity at home and take photos of your learning journey. You will need to document your activities and do a write up about what you learned.

Depending on the activity chosen, you may need to purchase materials. Please drop in and see me (parents) so that you can help your child choose an activity.

## TALK TIME/ SHOW AND TELL

Research "Growth Mindset." What things have you or someone in your family overcome that was difficult? How were they able to overcome this challenge? How did growth mindset play a role in being successful?

Write down your discussions in a thoughtful reflection.
